

Newsletter # 3, July 2017

tl;dr

More OpenChain Conformant Organizations; More Translations; More Onboarding Material. Our community is growing rapidly and our specification is proven as adoptable by large and small entities.

OpenChain Conformance

There are two major news items related to OpenChain Conformance. The first is that we have welcomed four new entities to our community in the last month:

Source Code Control
Open Source Risk Management Specialists

The second is that we have launched a logo for all OpenChain Conformant organizations to use:

License and Trademarks

Copyright 2017 The Linux Foundation. This newsletter is licensed under the [Creative Commons Attribution-NoDerivs 2.0 Generic \(CC BY-ND 2.0\)](#). Please feel free to share it onwards. OpenChain is a trademark of The Linux Foundation. It may be used according to The Linux Foundation [Trademark Policy](#) and the OpenChain [Terms of Use](#). All other trademarks belong to their respective owners.

The OpenChain Conformance logo will become an increasingly familiar sight in the supply chain over time. There will be more information about our plans for expanded adoption in the next newsletter.

- You can learn more about our launch here: <https://goo.gl/gmRNcy>

Meanwhile, if you are interested in learning more about the organizations that joined our community of conformance in the past month you can check out the individual news items:

- Source Auditor: <https://goo.gl/v9wG9J>
- Ura Design: <https://goo.gl/nigwAJ>
- Togan Labs: <https://goo.gl/xr1W5j>
- Source Code Control: <https://goo.gl/egD3gB>

OpenChain @ Events

We attended the Asian Legal Network meeting in Tokyo and LinuxCon China in Beijing.

- Learn more about OpenChain at the Asian Legal Network: <https://goo.gl/X9LpqF>
- Learn more about OpenChain at LinuxCon China: <https://goo.gl/kV4My3>

You can watch our LinuxCon China talk and view our slides here: <https://goo.gl/fBaBcB>

- No time? Jump to the “Big Picture” overview of OpenChain here: <https://goo.gl/gVPo7w>

This overview is suitable as a starting point for business decision-makers and other non-technical parties interested in why OpenChain exists and how it delivers value.

New Material Donations

We have received donations of flowcharts, checklists and a markdown conversation of the OpenChain Specification during the last month.

- Learn more about the flowcharts and checklists: <https://goo.gl/WDBPe8>
- Learn more about the Markdown donation: <https://goo.gl/KMNMpe>

New Curriculum Chair

We are delighted to announce that Alexios Zavras from Intel is the new chair of the OpenChain Curriculum Work Team. Alexios holds the position of Senior Open Source Compliance Engineer at Intel and has long been a contributor to projects in the Linux Foundation and further afield.

- Read our announcement here: <https://goo.gl/AQnJac>
- Connect with Alexios on LinkedIn here: <https://goo.gl/UkdDSK>

New Ways to Communicate

We have continued to expand the ways that people can find and interact with the OpenChain Project. This month we added appointment reservations to the OpenChain Facebook Page. Our goal is to make it possible to discover, interact with and participate in OpenChain as easily as possible.

- Learn more here: <https://goo.gl/1e3nJB>

OpenChain Internationalization

We have seen heavy activity on the internationalization front. The two stand-out pieces of news are the release of our onboarding material and our Frequently Asked Questions page in Japanese.

- Learn more about the Japanese onboarding material: <https://goo.gl/FhnWb9>
- Learn more about the Japanese FAQ: <https://goo.gl/jr8ofj>

What's Next?

In the next month we will announce our partner program pilot, we will continue to expand our internationalization efforts, and we will improve both the website and the format used for our newsletter. Learn more in the next newsletter or on the OpenChain mailing list:
